

Executive Report on Strategies in Equatorial Guinea

This report provides a strategic profile of Equatorial Guinea. It does so by compiling published information that directly relates to latent demand and accessibility. The reader new to Equatorial Guinea can quickly understand where Equatorial Guinea fits into a firm's strategic perspective. In what follows, Chapter 2 is a general evaluation of the accessibility of Equatorial Guinea, with particular focus on investment and business conditions. In Chapter 3, I report my findings on the real economic potential, or latent demand, represented by Equatorial Guinea when defined as an area of dominant influence.
