

From Trafficking to Terror: Constructing a Global Social Problem (Framing 21st Century Social Issues)

A panic surrounds human trafficking and terrorism. The socially constructed war on terror and war on trafficking are linked through discourses that not only combine the two, but help promote an anti-Muslim sentiment. Using ethnographic data and stories, *From Trafficking to Terror* presents the need to challenge the trafficking and terror paradigm, and rethink approaches to the large scale challenges these discourses have created. This book is ideal for courses on gender, labor, migration, human rights and globalization.
