

Key Terms in Ethics

Witnessness posits a universal ethics based neither on rational mental structures nor on moral principles, but on the extra-rational powers of the imagination. Harvey pursues this ethics by staging a speculative reading of Samuel Becketts untranslatable text, Worstward Ho, alongside Dantes Purgatorio and Primo Levis The Drowned and the Saved and If This Be a Man. Many of the thirty concise chapters that compose Witnessness are built upon notions whose names (e.g. dimness, lessness) take inspiration from Becketts unique and precise vocabulary. Harvey explores the particular experience of the witness-as recounted in Dante and Levi-for signs of a general, common, and innate witness-like attitude that protects the other and that we see expressed in Becketts penultimate prose piece.
