

Wellingtons Army, 1809-1814 (Classic Reprint)

MUCH has been written concerning Wellington and his famous Peninsular army in the wily of formal history: this volume, however, will I think contain somewhat that is new to most students concerning its organization, its day by day life, and its psychology. To understand the exploits of Wellingtons men, it does not suffice to read a mere chronicle of their marches and battles. I have endeavoured to collect in these pages notice of those aspects of their life with which no strategical or tactical work can deal, though tactics and even strategy will not be found unnoticed. My special thanks are due to my friend Mr. C. T. Atkinson, Fellow of Exeter College, Oxford, for allowing me to use the admirable list of the brigade and divisional organization of the Peninsular Army which forms Appendix II. It is largely expanded from the article on the same topic which he printed eight years ago in the History of Contents
